To whom it may concern,

I am a Realtor for Redfin and have worked with Kurt Kissmann on several projects over the course of nearly two years. I have found Kurt to be very easy to work with and a professional in every aspect. One of the first assets I noticed in Kurt is his integrity. This is very important to me and, quite frankly, the main reason why our first deal turned into a second.

Kurt's knowledge of the industry is easily reflected in the quality of his products, which are high. I also noticed the mutual respect he has with his crews, subcontractors and suppliers, building strong relationship and always having them paid on time. Additionally, I found any follow up work I requested of Kurt were timely completed with detail of quality.

I would feel very comfortable working additional transactions with Kurt.

Please feel free to call me if there are any additional questions. Thank you!

Regards,
Tom Idleman
